MANIBA CHARITABLE TRUST

Maniba Charitable Trust is a Registered Nonprofit Social Organization. The goal of this organization is to raise public awareness by providing better living conditions for orphaned and abandoned children, empowering women and improving the lives of senior citizens.

Poverty, illiteracy and homelessness predominantly impacts children, especially those of families who are migrating to survive. These families, struggling to care for their children's nutrition and education, can unfortunately turn violent and abusive towards their children.

The majority of women in our society are still dependent on others and have no means to support themselves when need arises. Necessary survival skills are difficult for them to achieve unless they find support from an organization like Maniba Charitable Trust.
